Informational Circular

IC-2016-04

TO: BOX Options Participants
FROM: BOX Market Operations Center
SUBJECT: UPDATED – Enhanced Price Protection Feature
DATE: March 1, 2016

Effective **Tuesday, March 1st, 2016**, the Enhanced Price Protection during Continuous Trading feature will be deactivated until further notice. The two remaining Pre-Trade Risk Control features, Drill-Through Protection and Price Protection at the Opening, will continue to be available to all BOX Participants.

For more information about these Pre-Trade Risk Control features please see [IC-2016-02](#).
