

BOXSM
OPTIONS EXCHANGE

Informational Circular

IC-2013-016

TO: BOX Options Participants
FROM: BOX Market Operations Center
SUBJECT: Complex Order Book Available on All Names
DATE: May 8, 2013

Following the successful launch of the **Complex Order Book**¹, BOX Options Exchange is pleased to announce that all names, including the new Jumbo SPY Option (SPYJ),² will be available for trading Complex Orders on **Monday May 13, 2013**.

As a reminder, all Participants interested in trading Complex Orders on BOX are required to update to the latest versions of the BOX services supporting Complex Order trading and re-certify. The protocol versions for Complex Orders are:

- SAIL Protocol A6
- FIX Specifications v3.6 or higher
- HSVF Protocol C4

Once updated and certified, Participants must coordinate with the BOX MOC to have their connections configured to support Complex Order trading.

Note: Participants who do not wish to trade Complex Orders on BOX are not required to make any change.

Please refer to [IC-2012-003](#) for more information on the Complex Order technical implementation.

Contact

Please contact the Market Operations Center at (866) 768-8845 or by e-mail at BOXMOC@boxexchange.com to schedule your re-certification session or should you require any additional information.
